

ELLIOTT SIGN & LIGHTING SOLUTIONS

THE DETAILS MAKE THE DIFFERENCE

Elliott's HiReach truck-mounted aerial work platforms are designed and built from the ground up to work hard and stand the test of time.

Solid Foundation - Elliott machines start with a full length subframe that mounts to the truck chassis to reduce frame twist and provide a more stable ride. Every HiReach also features a heavy-duty turret and bearing, with the most fasteners in the industry, to maximize the connection between the boom and the base of the unit. Together the HiReach structure translates to more reach and longer life for your investment.

Wide Track Cable Carrier - HiReach units are equipped with a cable carrier that's large enough to handle the "Office in the Sky" work platform that comes equipped with a suite of air, hydraulic, and welder tools and allows for two operators instead of just one, increasing your productivity.

High Performance Hydraulics - The hydraulic system is the heart and lifeblood of the machine. Elliott specifies high quality components from the leading manufacturers to ensure low maintenance and trouble-free operation.

Smooth, Precise Operation - Elliott's proportional controls are designed to provide you with the smoothest ride available. Features like high/low range control and variable engine speed let you get to the work area quickly and move with precision once you arrive.

All the Tools You Need - Whether you need to lift people or materials, weld, cut, wash, install, or maintain, the HiReach has the tools you need. The HiReach is like a Swiss army knife – precise, compact, and with everything you need to get the job done.

YOU WORK HARD. YOUR EQUIPMENT SHOULD, TOO.

That's why we design and build every HiReach from the ground up with standard features that help you tackle the toughest jobs every day.

BUILT FOR YOU

Elliott's engineering team will work with you to configure your unit for your application and help you select the proper material handling accessories to maximize your investment.

Customize your machine to be the perfect fit for your business! Designed for years of trouble-free operation, Elliott's products allow you to work with speed and precision so you can access your work quickly and safely. From installation to service work, Elliott has you covered.

SIGN & LIGHTING SOLUTIONS

STRONG, SMOOTH, MULTIFUNCTIONAL, RELIABLE

WHO WE ARE

We started an industry in 1948, and we haven't stopped yet. For over seventy five years, Elliott has been committed to delivering rugged design and multifunctional operation built with the finest components available. Today, Elliott proudly carries on our tradition of high standards for quality, safety, and durability, working to design and build the best equipment available to keep you working safely and efficiently.

BUILT FOR YOU

Our mission is simple: **creating the best solutions for lifting and positioning people and materials.** You can count on us to listen to you, take the time to understand your application, and deliver the optimal solution for your job and the way you work.

ELLIOTT IS THE SUPERIOR CHOICE

Elliott's HiReach aerials have been designed with input from sign and lighting experts across North America to make work more efficient and profitable. With an Elliott, you can reach further, lift more, have everything you need to do your job at your fingertips, and maximize your uptime, efficiency and return on investment.

"Office in the Sky" Work Platform & Accessories / Elliott's Office in the Sky suite of platform accessories lets you tackle your aerial work with ease. Only Elliott gives you the ability to run multiple dedicated accessory lines for increased efficiency, including 110V, welding leads, oxy/acetylene hoses, an air hose, a pressure washer hose, and a hydraulic jib winch. Elliott also offers extendable sign forks on the front of the work platform to carry channel letters and sign faces to the work area. These save you space, time and money by having everything you need to do your job already at the work platform.

Non-CDL Options / Finding CDL drives can be challenging. Elliott offers models ranging up to 87 feet working height that fit on non-CDL chassis.

Stow & Go Platform Jib / Elliott's Stow & Go jib conveniently folds and stores in the platform. Not only does this save time in set up and tear down, but it also reaches well beyond the platform rail to allow you to handle large objects with ease.

Low Maintenance / Elliott machines are known for their uptime, long life and low maintenance costs. Elliott is backed by industry's best warranty for your peace of mind. Elliott's extensive distributor service and support takes care of the rest.

Easy to Own / Thanks to increased operator efficiency, low maintenance costs, and the industry's best resale value, Elliott sign trucks feature the lowest cost of ownership. In addition, Elliott owners find it easier to attract and retain the most talented operators, which in turn leads to more satisfied customers.

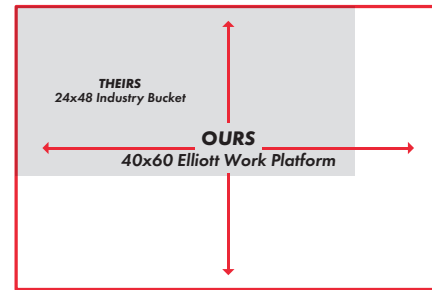

TYPICAL SIGN TRUCK
1 FUNCTION

OFFICE IN THE SKY WORK PLATFORM
7+ FUNCTIONS

With a single Elliott Equipment vehicle, you can actually reduce your overall spend on equipment and man hours by utilizing all the functions our equipment provides.

Elliott's work platform is twice as large as a typical two man bucket truck. More room leads to more comfort and productivity.

WARRANTY, FINANCING, AND MORE

THE INDUSTRY'S BEST WARRANTY

Elliott machines come with a comprehensive Parts and Labor warranty as well as a Lifetime Structural warranty. This provides users with the best protection in the industry. It not only reduces ownership costs, but also reflects the quality of our products.

SERVICE NETWORK

Elliott's worldwide network of sales and service providers provide peace of mind, ensuring that you have the backing of a constantly growing support network for your investment. Visit elliotequip.com or call (402) 592-4500 to be connected with a provider in your area.

FINANCING AVAILABLE

Ask us about our "Built for You" competitive, creative and flexible financing solutions with low monthly payments. Whether you want to finance or lease your investment, we have you covered.

TRUSTED BY COMPANIES LIKE YOURS

Sign & lighting companies across North America rely on Elliott for their installation and maintenance work. With a wide range of working heights and material handling capacities available, Elliott has the right tool for the way you work.

Elliott knows everyone works a little differently. Our engineers will work closely with you throughout the process to make sure you get just what you need to help you work more efficiently and safely.
